A SPECIAL MESSAGE TO YOU

CONCERNING OUR POST WAR PLANS

We are happy to be able to resume the printing of our spring bulb folder and fall illustrated catalog. We want to express our appreciation to you for your many letters and cards and for your fine bulb orders received these last few years. Due to circumstances we are sure you understand it has not been possible for us to make personal replies to some of your inquiries. Our business, started as a hobby during a period of ill health, has been growing larger each year. In fact this last year it increased $2\frac{1}{2}$ times over the preceding year, thanks to our many friends over the country. We know that we live in the best bulb growing district in the United States and altho it will be some time before bulb stocks are up to normal, we will hope to be able to supply your needs with the best bulbs money can buy.

OUR CATALOGS from now on----

will be mailed out under a new policy. Those who have purchased bulbs within two years of the date of mailing are on our permanent mailing list and will receive, as always, copies of our spring and fall catalogs. The balance of each issue will be reserved for those flower gardeners who send in now requests each season. In this way we will know that our catalogs are being received by those who will enjoy and use them.

Again we thank you for your patience and consideration during the war years and we wish you happiness and joy in this New Year.

Cordially yours,

Charles N. Wilson

Tuberous Rooted Begonias

This lovely type of Begonia with its large and exquisite blooms is becoming more popular each year. It grows and blooms in shady places, under trees, in beds, in porch boxes, or tubs, in places where other flowers will not thrive. For a long blooming season start the tubers indoors not later than March. They will be ready to set out in beds, porch boxes, hanging baskets or tubs as soon as danger of frost is over. Or they may be planted directly outdoors if planted in a sheltered location and protected from late frosts. They will bloom continually until the tops freeze down in the fall. Instructions for planting and care, and for winter storing will be enclosed with your order. Place your order early before colors or types are sold out.

GIANT SINGLE TYPE—The flowers of this type are enormous, sometimes reaching a size of 8" or over in diameter. They come in solid colors of white, pink, rose, yellow, apricot, salmon, crimson rose, and scarlet.

SINGLE FRILLED TYPE (Crispa)—This is the most popular of the single types. It has four large petals beautifully ruffled or frilled, these being sometimes overlaid by another set of frilled petals. The colors are the same as those of the Giant Single type.

CRESTED TYPE (Cristata)—A beautiful show type, the plants being covered with masses of flowers having a crested formation on the petals. (See illustration). This comes in the same colors as the Giant Single and the Frilled.

DOUBLE CAMELLIA—This is the most popular type, having large double flowers resembling a camellia or rose. Colors are white, pink, rose, yellow, blush, apricot, orange, dark red, scarlet, dark salmon, cardinal red, flame orange, light salmon, crimson rose, American Beauty.

DOUBLE PICOTEE—The flowers are of the same beautiful form as the Camellia type but the color is two-toned, the center light, the picotee edge pink, rose, salmon, apricot or red.

DOUBLE ROSEBUD—Exquisite flowers resembling perfect rosebuds with beautiful two-tone coloring, the back of the petals being darker than the face, the outer petals recurved, the center forming the bud. Colors: white, pink, salmon, rose and apricot.

CARNATION TYPE (Fimbriata)—Full double type with each petal fringed like a carnation. Colors: white, blush, pink, rose, yellow, apricot, orange, scarlet, salmon, crimson rose.

HANGING BASKET TYPE—A very attractive type having double flowers similar to the Camellia type but smaller. They should be planted in window boxes, hanging baskets, pots on pedestals, or a shady place in a rock garden. They are very showy, being covered with masses of blooms. Color: white, pink, rose, salmon, yellow, scarlet, apricot, orange.

TUBERS in the above types and colors are the largest size, averaging 2 inches and over in diameter.

Each 35c; Per dozen \$3.50.

MIXED TYPES AND COLORS—We have a large quantity of the next smaller size tubers which will also make very fine plants and flower abundantly. Mixed only.

Each 28c; Per dozen \$2.80.

OUR FALL DAFFODIL CATALOG

In July we will be ready to send out to our customers of record our large illustrated catalog of standard and novelty Daffodils, Tulips, Hardy Garden Lilies, Hyacinths, Crocus and other spring flowering bulbs. We hope at that time also to be able to introduce some of the new varieties of Daffodils and Tulips developed in Holland during the war.

If you are interested in receiving a copy of this catalog, be sure your request is on file in our office; unless of course you have ordered bulbs from us before, in which case your name is already in our catalog files. If you have friends who grow Daffodils, Lilies and Tulips we will be happy to have their names also.

LILY-OF-THE-VALLEY

We will have for spring planting some fine large Lily-of-the-Valley Pips. These are good for outdoor planting or for forcing in pots. They will have large blossoms the first year and if left in the ground will multiply rapidly. They should be planted in a shady spot in good rich garden soil and where they will have room to spread.

1 doz Pips.....\$1.00
100 Pips.....7.00
50 at the hundred price.

Please order early. They will be mailed when ready.

Hemerocallis

HEMEROCALLIS or Daylilies may be planted in full sun or partial shade in any good garden soil. They require no attention except ordinary weeding. They have no diseases or pests and need not be disturbed over a period of years. Various varieties bloom in our climate from May through September. They are at home among perennials, in front of the shrubbery border, or near the garden pool. Fall or early spring is the best planting time.
